

Dear EMA2 SIGMA Agile Team

My name is Nerimanda Bajraktari from European University of Tirana, Albania. I have been part of Erasmus Mundus SIGMA Agile Program for a period of 10 months in Lappeenranta University of Technology in the LUT School of Business and Management. I studied Master of Science in International Marketing Management.

I have applied with SIGMA Agile as I saw it as a great opportunity to study abroad, but it was beyond my imaginary I had the best experience of my life!

I had the chance to partake in SHIP Festival and Ship Disruption Camp 2017 and MyLut Big Idea. The experience in Lappeenranta University of Finland has been unique, the culture is so cold and warm in the same time, the weather is unpredictable. The university gives you a lot of opportunities to partake in different Startups or university gathering.

As per social life: I learnt to ice-skate, swim in a hole of frozen water, walk in frozen lake, watch Aurora Borealis and gain friends for a lifetime. It is a great feeling to know that despite the distance we always text each other and try to gather together. My experience in Finland has influenced all areas of my life, I am forever grateful for that opportunity.
